

Bloom's Taxonomy

Knowledge	Name one force.
Comprehension	Why does a parachutist slow down when her parachute opens?
Application	What would happen to the speed of the parachutist if the parachute didn't open?
Analysis	Which forces are helpful to us and which ones aren't?
Synthesis	Can you think of 3 things that would be different if there was no friction?
Evaluation	Do you think the world has benefited from friction or has it always been destructive? Explain your evidence.
