

Spinner: Graph Report

- Collect a stopwatch
- In pairs cut out a spinner and record the time it takes the spinners to fall..
- with one paperclip x3
- with three paperclipsx3
- with five paperclipsx3
- Average your results and share them with the other pairs. Record the results from all three variables on a line graph. Copy the graph and use it to explain your experiment to the group.
- On the laminated A3 sheet plot the dots xplain what each dot shows
- Join up the dots
- Explain the Meaning of the pattern of joined up dots

We did this---

We kept this the same—

because--

We changed this---

because-

We discovered---

We believe this shows-
