

## Visual Displays of the Learning Environment

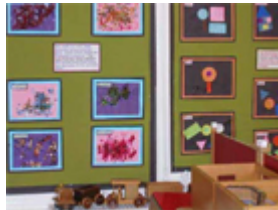

Displays of children's work can be used to help children consolidate their learning and extend their vocabulary and language. Thank you to practitioners in Grasmere, Queensbridge and St John of Jerusalem schools for allowing us to use these photographs.

1.) Displays of children's work can be used to help children consolidate their learning and to extend their vocabulary and language.

Come and count with the Gingerbread man - providing interactive displays, Once I caught a fish alive - linking areas of learning.

Shape pictures - reinforcing children's awareness of shapes, Ten tall soldiers - encouraging children to engage with print,

2. Careful organisation gives children the space they need for their activities and the opportunity to make choices and use resources independently.

Space and resources to support mathematical development Independent access to sand and water play.
